An idea floated; a thought made real. A place bound by land and sea, but rising free of both. Located on the edge of parkland and Atlantic Ocean, Eighty Seven Park creates a fresh dialogue with the vibrant community of Miami Beach. Seventy elegant homes that speak of light and air, designed by an architect with a poetic touch. It's an elemental approach, bringing together architecture, design and the natural landscape. It's a collaborative approach too; developed with Renzo Piano, a Pritzker Prize-winning architect who lives and breathes his art, there's a serenity to be found in the tension between sky and earth. A serenity that Eighty Seven Park captures so eloquently.

Stated square footages and dimensions are measured to the exterior boundaries of the exterior walls and the centerline of interior demising walls and in fact vary from the square footage and dimensions that would be determined by using the description and definition of the "Unit" set forth in the Declaration (which generally only includes the interior airspace between the perimeter walls and excludes all interior structural components and other common elements). This method is generally used in sales materials and is provided to allow a prospective buyer to compare the Units with units in other condominium projects that utilize the same method. Measurements of rooms set forth on this floor plan are generally taken at the farthest points of each given room (as if the room were a perfect rectangle), without regard for any cutouts or variations. Accordingly, the area of the actual room will typically be smaller than the product obtained by multiplying the stated length and width. All dimensions are estimates which will vary with actual construction, and all floor plans, specifications and other development plans are subject to change and will not necessarily accurately reflect the final plans and specifications for the development.

Reception

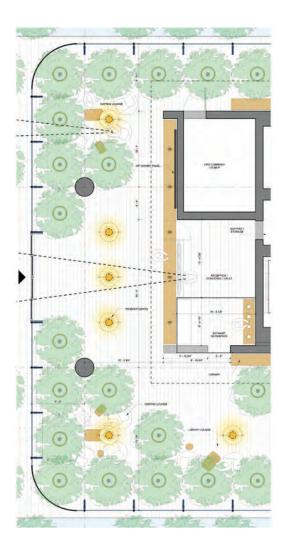

A welcome unlike any other, the onsite botanist has curated the experience at the Reception giving residents and visitors the sense of a botanist workshop, celebrating the botanic spectrum of the project's unique location. The arrival will be the first experience of the diverse tropical planting palette, recreating the feeling of a greenhouse "orangery" in the lobby; bringing the park environment into the interiors. Behind the front desk, a display of tools and a shelf of pots with smaller plantings, among other curiosities will welcome you home.

Botanical Exhibition

To further introduce the Botanical theme as a sophisticated living experience, a year-round exhibition will dignify the interior lobby spaces. Curated regularly, the exhibition will be ever changing to include everything from the finest collection of orchids, to rare items in the botanic field such as Bonsais and Petit Cactus. A gallery showcasing selected imagery capturing the best blossoming years for the orchids and garden planting bed per season will give further life and family comfort to the lobby areas.
