## VIEWS

Designed as complete flow-through residences, L' Atelier offers captivating vistas in every direction.

To the east, the gorgeous turquoise blues of the Atlantic blend seamlessly with the horizon. To the west, the emerald greens of the La Gorce Golf Course contrast with the skyline of downtown Miami. To the south, the historical Art Deco District and the towers of South Pointe shine. To the north, Allison Island, the architecture along Collins Avenue and the high-rises of Bal Harbour put the finishing touches on a location that is truly spectacular.

## NEIGHBORHOOD

Begin each day with sunrises over the ocean. Savor a warm cup of coffee on your expansive balcony as nothing stands between you and your view. Then, venture downstairs for a walk along a quiet stretch of beachfront, free from the hustle and bustle of tourists and traffic.

Just outside the historic front facade, the many treats of Collins Avenue beckon. Sidewalk cafes offer a perfect spot for lunch while exploring fashion boutiques and other shops. Walk across the street to Indian Creek to board your yacht or charter one for the afternoon. Take in a round of golf or a tennis match at nearby country clubs. Make a quick jaunt to Lincoln Road or Bal Harbour Shops for designer creations. Cap off the evening at one of the fine dining destinations in the area or attend a concert at the nearby New World Symphony.

Stated dimensions are measured to the exterior face of exterior walls, to the midpoint of demising walls and to the exterior face of walls adjoining corridors or other common elements. This method of measurement varies from the dimensions that would be determined by using the description and definition of the "Unit" set forth in the Declaration (which generally only includes the interior airspace between the perimeter walls and excludes interior structural components).

Note that measurements of rooms set forth on the floor plan are generally taken at the greatest points of each given room (as if the room were a perfect rectangle), without regard for any cutouts. Accordingly, the area of the actual room will typically be smaller than the product obtained by multiplying the stated length times the width. All dimensions are approximate and may vary with actual construction, and all floor plans and development plans are subject to change.

Ceiling heights referenced herein are measured from the top of the lower floor slab to the top of the upper floor slab and exclude those areas where any soffit, moldings, dropped and/or suspended ceilings and/or light fixtures may be installed. As such, the referenced ceiling heights may not represent actual ceiling clearance. The floor plan and square footage referenced herein are believed to be true and accurate, but are not guaranteed and may be revised, amended, or changed without notice. All dimensions are approximate, and are subject to change in accordance with a contract of sale.

All information contained herein is believed to be accurate but is not warranted.
