ENVISIONING A LANDMARK

Refreshing the Miami Skyline

Presenting a new paradigm in luxurious living.

Downtown Miami's hottest neighborhood celebrates a property that represents a true architectural icon. Brickell Flatiron is an urban oasis developed by Ugo Colombo's CMC Group and designed by Luis Revuelta of Revuelta Architecture International: the tower of soaring glass is defined by its sweeping exposures, which punctuate its romantic renaissance-revival interiors.

BRICKELL

A Lively Composition of Commerce and Culture.

As Miami's Financial District, Brickell remains a sophisticated and culturally significant community packed with creative types and tastemakers of every stripe.

LOCATION

A Walk-around Neighborhood

Located in the heart of Downtown Miami, Brickell Flatiron is ideally situated within walking distance of Mary Brickell Village and Brickell City Centre — offering residents unparalleled access to a wide array of fashionable conveniences — with picturesque sidewalk cafés, fine dining, shopping, markets, outdoor and cultural activities along the way.

Julian Schnabel was born in New York City in 1951. In the late 1970s and early '80s he destroyed the barrier between figurative and abstract art and became one of the main figures in the resurgence of painting on the international art scene. His work has continued to influence what is seen as contemporary art today.

Schnabel's work has been exhibited all over the world. His paintings, sculptures, and works on paper have been the subject of numerous retrospective exhibitions. His work is included in the public collections of the Museum of Modern Art, New York; Whitney Museum of American Art, New York; Metropolitan Museum of Art, New York; Museum of Contemporary Art, Los Angeles; Guggenheim Museum, New York and Bilbao; Tate Gallery, London; Tokyo Metropolitan Art Museum, Tokyo; Museum of Fine Arts, Houston; Museo Nacional Centro de Arte Reina Sofía, Madrid; National Gallery of Art, Washington D.C.; National Gallery of Australia, Canberra; San Francisco Museum of Modern Art, San Francisco; Hamburger Bahnhof, Berlin; Kunstmuseum, Basel; Fondation Musée d'Art Moderne, Luxembourg; and Centre Georges Pompidou, Paris.

Rendering of rug designed for Brickell Flatiron by Julian Schnabel, 2014

Julian Schnabel / Untitled (Gramercy Park Hotel), 2006 / 20 x 24 in Polaroid Camera / 33 x 22 in

In 1996 Schnabel wrote and directed the feature film *Basquiat* about fellow New York artist Jean-Michel Basquiat. Schnabel's second film, *Before Night Falls*, based on the life of the late exiled Cuban novelist Reinaldo Arenas, won both the Grand Jury Prize and the Coppa Volpi for best actor for Javier Bardem at the 2000 Venice Film Festival. He won Best Director at the Cannes Film Festival in 2007 for *The Diving Bell and the Butterfly* and two Golden Globes, award for Best Director and Best Foreign Language Film. *The Diving Bell and the Butterfly* was also nominated for four Academy Awards.

In recent years, Schnabel designed the interior public spaces of Gramercy Park Hotel and built the Palazzo Chupi on West 11th Street. Julian Schnabel currently lives and works in New York City and Montauk, Long Island.

“Schnabel’s foray into filmmaking has bolstered his impulse to create three-dimensional environments that extend beyond the picture plane and into the viewer’s space. The environments Schnabel has created do not reflect a dalliance in interior design, rather they are consistent with the preoccupation of redirecting space evident throughout his career.”

TOWER UNITS

Keyplan / Levels 19-49

Stated dimensions are measured to the exterior boundaries of the exterior walls and the centerline of interior demising walls and in fact vary from the dimensions that would be determined by using the description and definition of the "Unit" set forth in the Declaration (which generally only includes the interior airspace between the perimeter walls and excludes interior structural components). Note that measurements of rooms set forth on this floor plan are generally taken at the greatest points of each given room (as if the room were a perfect rectangle), without regard for any cutouts. Accordingly, the area of the actual room will typically be smaller than the product obtained by multiplying the stated length times width. All dimensions are approximate and may vary with actual construction, and all floor plans and development plans are subject to change.

N >

PENTHOUSE UNITS

Keyplan / Levels 50-61

Epic Miami Residences & Hotel, Miami

Porto Vita, Aventura

Ugo Colombo

CMC GROUP, INC.

Ugo Colombo has played a pioneering role in the development of Miami's downtown skyline. He is widely regarded as one of South Florida's most respected and successful residential and commercial developers. Born in 1961 in Milan, Italy, Mr. Colombo came to the United States in 1983. His real estate career began while he was studying at the University of Miami. After acquiring and selling the inventory in two Brickell Avenue buildings—the Imperial, Villa Regina Condominium, Mr. Colombo and his company, CMC Group, focused on the design and construction of high-rise luxury condominium buildings on Brickell Avenue, Miami Beach and Aventura.

Ugo Colombo has developed many landmarks on the Miami skyline – Bristol Tower and Santa Maria on Brickell Avenue – both of which helped redefine the condominium market in South Florida. He also played a significant role in the rejuvenation of Miami Beach's South Beach community by redeveloping two of Ocean Drive's most important Art Deco hotels: the Waldorf and Casa Grande. In Aventura in North Miami-Dade County, Ugo Colombo participated in a joint venture to create the ultimate in country club living: Porto Vita, a Mediterranean-style village located along the Intracoastal Waterway. Ugo Colombo's most recent development successes include Epic Residences and Hotel, a 55-story luxury condominium and hotel at the mouth of the Miami River in Downtown Miami; Grovenor House, a 166-unit luxury condominium project completed in 2006 in the heart of Miami's Coconut Grove community; and Beach House 8, a luxury boutique condominium on Miami Beach.

In 1994, Ugo Colombo acquired The Collection, a seven-franchise luxury automotive dealership (Jaguar, Porsche, Ferrari, Maserati, Aston Martin, Audi and McLaren). The Collection is ranked as one of the top performing luxury car dealerships in the United States.

In 2002, CMC Group completed a 750,000-square-foot mixed-use office/retail development in Coral Gables to house The Collection and third-party office and retail tenants. In addition to The Collection, 4000 Ponce offers 150,000 square feet of Class A office space and 32,000 square feet of ground-level retail space.

“Every property offers a new opportunity to create beauty. From the shape of a building to the materials inside of it, each choice is about creating an elegant lifestyle.”

Luis Revuelta

LRI INTERNATIONAL

A principal of Revuelta Architecture International, P.A., during the last 39 years Mr. Revuelta has worked on numerous major and complex projects in Miami, Miami Beach, Coral Gables, Fort Lauderdale, and internationally. In recent years, he has designed and project-managed the tallest and most complex condominium buildings in the southeastern United States. The architect in charge of design for many of South Florida's most prestigious luxury condominiums, Mr. Revuelta's work includes the EPIC Residences & Hotel, Bristol Tower, Santa Maria, Porto Vita-South, Porto Vita-North, The Bath Club, Azure, Jade Residences, Il Villagio and Grovenor House.

Mr. Revuelta founded his firm with a commitment to provide his clients quality design balanced with sustainable and economically feasible solutions, delivered within stringent time schedules. This philosophy in the past two decades has been the cornerstone of the success of his projects. Mr. Revuelta has partnered with top local and national developers in the design and creation of some of South Florida's leading landmark residential, commercial, hospitality, automotive and mixed-use projects.

This experience gained over the years has contributed to the successful evolution of functionally sound, as well as aesthetically pleasing projects. The conservation and rehabilitation of historically significant structures, green systems and sustainable building practices, figure prominently in the long-term goals and expertise of the company.

Jade, Miami

Porto Vita, Aventura

Il Villagio, Miami Beach

“The underlying philosophy behind our success has been our willingness to persevere in the pursuit of the architectural concepts and details we believe will make a project successful for our clients and their customers.”
